Dear Friends and Supporters,

We are proud to have changed the lives of thousands of women who come to us for professional and personal support. Our clients have earned their place in the world through their hard work and determination to achieve their goals. The journey from despair to hope is a testament to the strength of the human spirit.

Since starting operations in 1997 what began as a grassroots organization serving women in New York City has grown into an international not-for-profit organization that has helped women across the globe as they proceed on their paths to economic independence. It is a milestone we've been proud of for the past 15 years. We convey our firm belief that all women can achieve with the right tools and support.

That's why GfS, the professional Women's Group members in mobilizing the Associate professional Women's Group (ApWG), share a unique bond affecting a particular community. Through the implementation of our program is proof that continuing to learn and build skills is a critical component of our mission. Participants improve their credit scores.
